

WMGSD1T

Grid Dimmer Switch Trailing Edge

Technical characteristics

Main electrical features

Frequency	50/60
Nominal voltage	240 V

Voltage

Operating voltage	240 V AC
-------------------	----------

Materials

Material	Urea-formaldehyde
----------	-------------------

Connection

Type of load	capacitive
--------------	------------

Equipment

Dimming principle	phase cut-off
-------------------	---------------

Use conditions

Insert	insert white
--------	--------------
