

Returns & Faulty Items

- If any problem is encountered during or after installation, please call the ALL LED technical department to get the problem resolved as soon as possible.
- Please do not just return the item to the outlet you purchased it from, as you are only entitled to a replacement or refund after the unit has undergone testing and the unit has been confirmed as having a manufacturing defect/fault. Your statutory rights are not affected.
- The manufacturer will not be deemed liable or held responsible for any damages caused by faults or manufacturing defects that may be present in any of its products or the misuse or incorrect installation of this device. Please refer to our troubleshooting guide for further information.
- All goods are supplied under the terms and conditions of ALL LED LTD, a copy of which may be obtained upon written request.

Once connections have been established you can install switch on the wall.

Instructions

2) Connecting your Remote to Intelligent lighting.

Step 1: Set receiving device to Find and Bind mode. Lights will flash indicating Find and Bind mode active: Duration 3 minutes.

Step 3: Short press 1, 2, 3 or 4 to choose a group that you would like to pair the device to.

Step 5: Quickly short press G button to start Find and Bind pairing procedure. LED indicator will flash for 3 seconds then flash x6 slowly to indicate successful pairing.

Step 2: Bring the remote within 10cm of the intelligent lighting device.

Step 4: Press and Hold power button until LED indicator turns on.

Factory Reset Remote

Step 1: Press and Hold power button until LED indicator turns on.

Step 2: Quickly short press power button x5. LED indicator flashes x3 quickly to indicate successful reset.

Note: All configuration parameters will be reset after the remote is reset or removed from the network.

Quick Install Guide

To be able to use a remote with your Smart Home Hub and Intelligent lighting follow (1 and 2). If you would like to use your remote directly with your Intelligent lighting without a Hub, follow Instructions (2).

1) Connecting Your Remote to a Smart Home Hub Required if using a hub.

Step 1: From Smart Home Hub App or Voice Control; Add a device or enter pairing mode.

Step 2: Press and Hold power button until LED indicator turns on.

Step 3: Quickly short press R button. LED indicator will flash. 20 Seconds until timeout. LED indicator blinks x5 quickly for successful pairing.

Install Tip

Care - Unit is supplied with a prefixed plug. Do not install in wall prior to programming. Unit must be in physical proximity to receiving devices. Recommended to set up devices prior to install.

Removing Intelligent Lighting from your Remote

Step 1: Set receiving device to Find and Bind mode. Lights will flash indicating Find and Bind mode active: Duration 3 minutes.

Step 3: Short press 1, 2, 3 or 4 to choose a group to unpair.

Step 5: Quickly short press G button **twice** to start Find and Bind unpairing procedure. LED indicator will flash for 3 seconds and then flash x6 slowly to indicate successful unpairing.

Step 2: Bring the remote within 10cm of the intelligent lighting device.

Step 4: Press and Hold power button until LED indicator turns on.
