

Product Code: QMXS3

Description: Multi-Colour Mixed Reel PVC Sleeving 4mm

## Dimensions

|                             |     |
|-----------------------------|-----|
| Length (M)                  | 60  |
| Inner Diameter (mm)         | 4   |
| Nominal Wall Thickness (mm) | 0.4 |

## General Information

|                                        |                                                                          |
|----------------------------------------|--------------------------------------------------------------------------|
| Colour                                 | Blue, Brown, Green / Yellow (RAL 5017 (Blue), 2004/6029 (Green/ Yellow)) |
| Elongation Break (%)                   | 220                                                                      |
| Hardness                               | BSS20-30                                                                 |
| Dielectric Strength (kV/mm)            | 20                                                                       |
| Insulation Resistance (Ohm/cm)         | 10 <sup>10</sup>                                                         |
| Suitable Cable Size (mm <sup>2</sup> ) | 1.5 to 2.5                                                               |
| Minimum Tensile Strength (MPa)         | 15                                                                       |
| Flammability                           | Self extinguishing in 30 seconds                                         |
| Continuous Temperature (°C)            | -25 to +70                                                               |

## Materials

Material: PVC (Polyvinyl Chloride)

## Standards

BS EN 60684-2: 2011
