

Product Code: QOE8343BLK

Luckinslive 435191678

Description: 4 Pole 3 Way 24A IP68 (M16+M20) Connection Box

#### Dimensions

|                             |     |
|-----------------------------|-----|
| Length (mm)                 | 141 |
| Width (mm)                  | 88  |
| Height (mm)                 | 37  |
| Minimum Cable Diameter (mm) | 5   |
| Maximum Cable Diameter (mm) | 8   |

#### General Information

|                              |                                        |
|------------------------------|----------------------------------------|
| Colour                       | Black & Red                            |
| Rated Current (A)            | 24                                     |
| Tightening Torque (Nm)       | 2.5                                    |
| Ingress Protection           | IP68 (Tested to 1 Metre at 60 Minutes) |
| Working Temperature (°C)     | 60                                     |
| Operational Temperature (°C) | -40 to +105                            |
| Warranty (Years)             | 1                                      |

#### Materials

Body Components: Polycarbonate  
Membranes: Silica Gel

#### Additional Information

2 x M20 inline entries and 1 x M16 entry with seals and membranes. 4 fixing points.  
Supplied with 4 pole connector block with screw terminals.

#### Standards

BS 6220  
BS EN 60670
