

## Dimensions

|             |      |
|-------------|------|
| Width (mm)  | 790  |
| Height (mm) | 1080 |

## General Information

|                                |                                          |
|--------------------------------|------------------------------------------|
| Colour                         | Black                                    |
| Minimum Tensile Strength (MPa) | Longitudinal: 23.12<br>Transverse: 18.19 |
| Safe Working Load (Kg)         | 15                                       |

## Materials

Material: Polyethylene

## Additional Information

Sack Thickness: 90 microns  
Volume: 135 litres  
Capacity: 15kg
