

INSTALLATION GUIDE & USER MANUAL

AFD65

ENSURE POWER SUPPLY IS OFF WHEN HANDLING ANY ELECTRICAL EQUIPMENT.

Returns & Faulty Items

- If any problem is encountered during or after installation, please call ALL LED technical department to get the problem resolved as soon as possible.
- Please do not just return the item to the outlet you purchased it from, as you are only entitled to a replacement or refund after the unit has undergone testing and the unit has been confirmed as having a manufacturing defect/fault. Your statutory rights are not affected.
- The manufacturer will not be deemed liable or held responsible for any damages caused by faults or manufacturing defects that may be present in any of its products or the misuse or incorrect installation of this device.
- All installations must be carried out in accordance with this installation guide and user manual.
- All goods are supplied under the terms and conditions of ALL LED LTD, a copy of which may be obtained upon written request.

ATTENTION

**IF ANY PROBLEMS PERSIST, PLEASE CALL THE ALL LED
TECHNICAL DEPARTMENT FOR FURTHER ASSISTANCE.**

Environmental Protection Waste electrical products should not be disposed of with household waste. Please recycle where facilities exist. Check with your local authority or retailer for recycling advice.

The manufacturer will not be deemed liable or held responsible for any damages caused by faults or manufacturing defects that may be present in any of its products or the misuse or incorrect installation of this device. Your statutory rights are not affected.

Installation Instructions

1. We recommend checking the installation with the products for suitability prior to installation.
2. Turn off power supply at source to avoid any risk of electric shock.
3. Using appropriate technique cut a suitable hole in the ceiling.
4. Allow 50mm above and around the fitting for air dissipation.
5. If there is any insulation (wool type), please use a suitable IC cover (AFD65/75/IC).
6. Connect the lamp holder to the cables and clamp the cables down.
7. Install compatible GU10 lamp by twist opening the bezel. Insert the lamp securely into the seating.
8. Install the bezel (lock clockwise, unlock anti-clockwise). Take care to place silicon gaskets in place for IP rated bezels to retain IP rating.
9. Turn the power on to test function. After the test is finished, turn power off.
10. Carefully hold back the two springs to insert the downlight into the hole. The clips will hold the downlight in place.

*If using with insulation please use IC Cover (AFD65/75/IC)
