

Horizontal Power Distribution

Designed for installations where height is restricted, our 295mm-high horizontal power distribution boards fit where standard boards won't. Compact on the outside, with plenty of space inside for easy wiring.

MAIN SWITCH INCLUDED

- Horizontal design for restricted spaces.
- Fixed horizontal busbar.
- Spacious internal layout for easier cable routing and termination.
- Removable and raised DIN rail for greater wiring access.
- Aligned earth and neutral bars for faster, tidier wiring.
- Coin-slot door lock for secure, convenient access.
- No knockouts for added flexibility when glanding off.
- Reversible door can be fixed to either side.
- Easily removeable devices.
- Robust 1.2mm steel enclosure.
