

Type B HP RCD

Fitting inverter heat pumps? This is the RCD for the job. Unlike a standard Type B HP device, this Type B HP RCD is rated up to 20kHz, providing the enhanced protection required for the high-frequency residual currents that can come with heat pump installs.

COMPATIBLE
WITH OUR
**SINGLE
PHASE**

-  Detects AC, pulsating DC, and smooth DC residual fault currents.
-  Distinguishes normal high-frequency leakage from genuine faults.
-  Compact 2-module design takes up less space on the board.
-  Tested to operate at frequencies greater than 20kHz.
-  Maintains 150mA tripping threshold above 1kHz.
