# Installation Instructions

1. Ensure surface where LED strip intends to be installed is smooth, adequately cleaned and free of oil and dust.

2. Ensure there are no sharp bends where the strip is being installed. If there are please cut and rejoin the strip either with appropriate cabling or LED strip quick-connectors. Cut the strip at the marked cut-points if necessary.

3. Remove the protective backing from the tape, revealing the adhesive.

4. Firmly press the LED strip onto the cleaned surface ensuring that you have applied even pressure along the length of the strip to ensure adhesion.
